PROJECTS

LinkTweak
Link Shortner

 Dec 2024

- Technologies Used:

NextJS, MongoDB, TailwindCSS, FlowBite

- Source Code:

 Zeeshanx01/Link Tweak

- Live Link:

LinkTweak

ZenTasks
Todolist React App

 Oct 2024

- Description:

This is a To-Do List app that lets you easily add, edit, delete, and mark tasks as complete. It saves tasks in local storage, so they stay available even after refreshing the page. The app also includes a feature to hide or show completed tasks for better task management.

- Technologies Used:

React, Vite, Tailwind CSS, React-Icons

- Source Code:

 Zeeshanx01/Todolist-React-App

- Live Link:

ZenTasks

PassOP
Password Manager

 Nov 2024

- Technologies Used:

ReactJS, TailwindCSS, FlowBite, Lord-Icons, React Toastify

- Source Code:

 Zeeshanx01/Password-Manager-Local

- Live Link:

PassOP

EDUCATION

B.Sc. in Computer Science
NUML University Faisalabad

 Sept 2022 – Expected July 2026

F.Sc Pre-Engineering
Punjab College Faisalabad

 Sept 2019 – June 2021

MY LIFE PHILOSOPHY

"Strive for continuous growth and embrace challenges with a positive mindset."

MOST PROUD OF

🏆 **I'm the class representative (CR)**

- As the class representative (CR), I talked to teachers about what students needed and shared their concerns and ideas to make our class better.

- I planned events and activities to make learning more enjoyable. These events helped us bond and made learning fun.

- Whenever there were problems, I worked with everyone to fix them. By working together, we made sure everyone felt supported and included.
